

Extra, extra!

Lesson 2.2 - Accepting Each Other

Peter and Cornelius were Jew and Gentile but they learned to accept each other and Peter shared the Good News about Jesus with him.

Macky and Portia come from different families and backgrounds, but they still have some things in common that make them good friends. Draw a line from Macky to the things that are only true about him. Draw a line from Portia to the things that are only true about her. Circle the things that are true about both of them. Then colour the two friends.
